

Carriers Goodwill Quotes now available On-Line from Vero National Marine

Our highly successful and innovative on-line quotation system, [Premium Generator](#), has simplified the process of marine insurance for the past three years, allowing intermediaries to quote and bind a broad range of cargo and transit policies 24/7.

We are pleased to announce that we have further enhanced Premium Generator to include Carrier's Goodwill cover.

Carrier's Goodwill is designed to give the client the option of making a commercial settlement to a valued customer regardless of legal liability. It is suitable for carriers who are not Common Carriers and do not have legal liability for damage to their client's goods but who want the option of reimbursing their clients in the event of a major loss.

It is important to note that the cover is **for the benefit of the Carrier** only and does not allow the carrier to sell or arrange insurance or to provide financial advice. Household Removals can not be covered under the Carrier's Goodwill cover.

The policy covers named perils and a number of extensions are available:

- Loading and unloading (including shedding of load),
- Theft, pilferage and non-delivery,
- Breakdown of refrigerating machinery,
- Rain, water and/or hail damage.

[Carriers Wording link](#)

When you request a new quote through Premium Generator, you will see that a Carrier's Goodwill option has been added to the list of products. To obtain a Carrier's Goodwill quote, simply follow the same procedure as for previous products.

For further information, or for a quote on Carriers Liability, Carriers Indemnity or Carriers Household Removals, please contact your local branch representative:
